

Genesis Trial for ADD & ADHD.

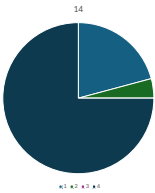

The Genesis Trial was conducted to explore the effects of Genesis, a vibrational remedy formulated to support natural cognitive alignment. Over a 2-month period, 30 participants of various ages completed a structured questionnaire assessing focus, task initiation, calm, emotional balance, and sleep quality before and after regular use of Genesis.

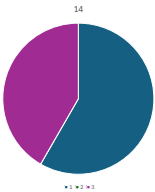

The purpose of the trial was to gather real-world feedback on how Genesis supports attention, motivation, and mental clarity in both adults and children, with or without formal ADD/ADHD diagnoses. Participants also provided insight into lifestyle factors influencing focus, consistency of use, and perceived safety.

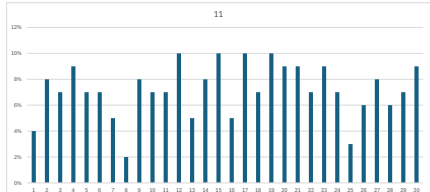

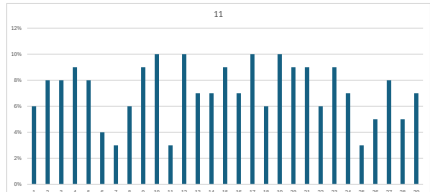

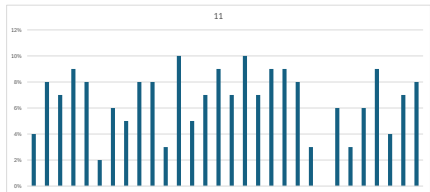

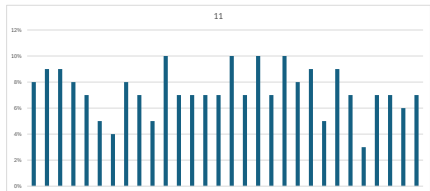

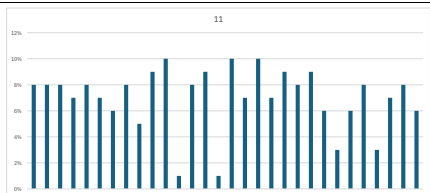

Findings from this initial trial aim to deepen understanding of how regenerative, non-chemical approaches like Genesis can contribute to healthier patterns of focus, emotional regulation, and cognitive flow.

			Daily	Most Days	Occasionally	
1	How consistently did you take Genesis during the 2 Month Trial?		13	15	1	
			15 Mins or Less	15- 30 Mins	Unsure/Other	
2	How long does it take for you to feel the effects of Genesis?		7	11	11	
			< 3 Hours	3-4 Hours	5-6 Hours	Unsure
3	How long did the effects of Genesis last (on average)?		3	4	14	8

			Less mental resistance to starting tasks	Less time lost to distractions or doom-scrolling	Increased follow-thorough on repetitive tasks	Greater calm and patience under pressure	Improved time management/efficiency	Felt like I had more time in my day	No noticeable changed yet
4	Subtle Shifts & Habits (Tick all that apply)		24	16	17	19	15	13	0
			None	Mild	Moderate	Other			
5	Any side effects or discomfort?		14	7	1	2			

			Genesis felt gentler with equal or better benefits	Genesis was less potent but had no side effects	Genesis felt ineffective for me	I have not used chemical medication
6	Compared to chemical medication (if used)		5	1	0	18

			Yes	No	Unsure
7	Genesis supports the formation of new, healthier neural pathways, helping the brain self-regulate over time. Do you feel your need for external focus aids may decrease with continued		14	0	10

			Average
8	After taking Genesis, I felt calmer and more mentally organised. A Rating from [0–10]		72%
9	It was easier to start tasks I usually avoid. A Rating from [0–10]		72%
10	I completed tasks I had postponed for a long time. A Rating from [0–10]		69%
11	My focus lasted longer without mental fatigue. A Rating from [0–10]		75%
12	I felt less anxious or overstimulated. A Rating from [0–10]		71%

13	I was less distracted (e.g. social media, doom-scrolling) A Rating from [0–10]		64%
----	--	--	-----

14	My mood and emotional balance improved. A Rating from [0–10]		69%
----	--	--	-----

15	I experienced greater clarity and flow. A Rating from [0–10]		71%

Before & After Genesis			
16	Focus and attention - Before Genesis A Rating from [0–10]		38%
17	Focus and attention - After Genesis A Rating from [0–10]		77%
18	Task initiation - Before Genesis A Rating from [0–10]		39%
19	Task initiation - After Genesis A Rating from [0–10]		75%
20	Task completion - Before Genesis A Rating from [0–10]		46%

21	Task completion - After Genesis A Rating from [0–10]		79%
----	--	--	-----

22	Emotional regulation - Before Genesis A Rating from [0–10]		53%
----	--	--	-----

23	Emotional regulation - After Genesis A Rating from [0–10]		76%
----	---	--	-----

24	Sleep quality - Before Genesis A Rating from [0–10]		67%
----	---	--	-----

25	Sleep quality - After Genesis A Rating from [0–10]		64%
----	--	--	-----

26	How likely are you to continue using Genesis? A Rating from [0–10]		71%
----	---	--	-----

27	How likely are you to recommend Genesis to others? A Rating from [0–10]		85%
----	--	--	-----

28	Since using Genesis, I’ve noticed...		
	"That I am not as stressed and overwhelmed by tasks. Can't concentrate longer and am more aware of things. Also feels like my short term memory is better"		
	"I really did notice improvements overal while using genesis - I also felt very aware of all that needed to be done- almost super aware but with more clarity - yet overwhelming clarity. "		
	"My thoughts are more organized and I'm far more present. I can sit still without fidgeting, settle into my chair, and start-and-finish one thing at a time—closing cupboards, putting things away, reading emails, and actually listening. My work quality and motivation are back. My nervous system feels more regulated: I tolerate loud noise better and even managed a jam-packed Tyger Valley Mall on a Saturday. Word-finding and retention have improved, so conversations feel easier. I'm more sociable, with more energy despite intense stress and the loss of my second mom. It took time—about halfway through my third bottle—but the improvements are now clear. I'm grateful; it's been genuinely life-changing."		
	"Deep and subtle insights emerge. Perhaps this is its gift to me more than highly improved focus, tackling tasks with vengeance, etc. I have noticed what I think are tiny hints at remembering my dreams. I always have a knowing that I dreamt, but cannot actually remember my dreams. Now I have memory of tiny snippets of my dream life and what feels like getting back into my body after a night out there somewhere in the universe...but only on the nights I managed 4 to 6 hrs sleep (there have not been many in the past weeks)."		
	"More focus, and longer attention span."		
	"Better marks at school Homework finished by Wednesday Tidier room Tidier cupboard Sleeping better and on time "		
	"Much more focus and ability to begin and complete tasks that before were very difficult to both begin and complete. "		

	"That I don't procrastinate and am also not late any more. I stay more in the present moment and can listen better to others. There is a calm presence in me now and I feel I can always go back to it. "	
	"I gave myself more of a break. Less obsessing over mistakes or miscommunication. More able to move past stuff. Seeing bigger picture rather than being perfectionist in the moment. It was like a magic elixir for zen and focus. "	
	"A returning home to myself...a Calmness that surrounds me all the time...love it!! "	
	"My thought processes are less cluttered/shifting. I can now focus and my productivity has improved incredibly. I used to wake up at 3am and battle to get back to sleep, but I am now sleep straight through the night."	
	"more grounded focus and staying on task. Physical and mental clarity and energy. Genesis is helping me change my brain. "	
	"I don't procrastinate as much when it comes to boring daily tasks and I am much more focused when I work. That in itself is a rewarding experience. "	
	"Since using Genesis, Ive noticed that not only am I more sharp mentally but also more motivated to do physical activities. After the second bottle I didn't need to take it every day, it is as though new healthy habits were not reliant on genesis but rather felt more in tune with myself. I even started studying again. I feel much calmer through stress, my anxiety is less and much less over-thinking and rather just getting tasks done with meticulous focus. "	
	"I am much more tolerant and can still focus and concentrate when there's is lots of surround noise. I am not as sensory overwhelmed as before. My memory is better, I feel more present and grounded."	
	"A greater focus on starting tasks and an increased drive to finish them. Feeling uplifted and encouraged with tackling tasks i had put off for a while"	
	"I start and complete my tasks that I have been putting off for months, with ease. Love Genesis!"	
	"Felt huge connection to memories of important people in my life. I am 77 yrs old, so many loved ones have passed . It felt as though they were next to me again in a very defined way . Hugely comforting ☺ I have taken meds for depression prescribed by my Dr. Felt that they were having a detrimental Effect on my brain function, as though part of me was becoming disconnected and dead . I stopped taking these meds as could feel the long term usage was destroying my ability to feel reality . This was about 3 year back . I was diagnosed with Covid in 2020. Had taken the Covid vax at least 3 times which left me with gut issues - still not quite right . I travelled internationally so had to be vaxed to travel . Genesis has definitely improved my recall and connection to the past . Both my children live in other countries , and all my immediate family have passed . Genesis has allowed me reconnect and to remember 🙏. Reality , memories are back in technicolour. Have done adhd informal tests and results confirm that I tick many boxes in this respect . I have always been a highly functional empath . Also qualified as a Reiki master teacher . Vegetarian , do not drink alcohol , my faith requires that I do not consume the pungents - garlic, onions, leeks , chives. I feel very blessed to have been on this trial and to be aware that these energetic tinctures are available .	
	"how much easier it is to start and complete routine admin tasks that I previously avoided, it feels good and adulting feels easier"	
	"My concentration has been fantastic, documents that would normally take we weeks to write take me 3 to 5 days. I'm doing all the boring tasks I usually put off and never get done, like tidying cupboards and basic admin. My memory is much better, everything from managing to do grocery shopping without a list to recalling people's names. I'm finding it easier to put social media down after a few minutes rather than getting sacked in for hours. I'm definitely calmer "	
	"More tasks completed, less postponement, more focus when doing tasks. I am effective and can get more done, accurately "	
29	Closing Summary	The findings from this initial Full Spectrum Protocol trial reveal meaningful regenerative potential, with participants showing notable improvement across key emotional, behavioural, and cognitive areas within a remarkably short period. Such positive shifts suggest that the protocol may support the formation of new, healthier neural pathways—helping the brain restore balance and self-regulate more effectively over time. At Beyond Medicine, our work is rooted in the understanding that the body holds an innate ability to regenerate when optimally supported. Through the use of vibrational frequency remedies, we aim to activate these natural healing processes, bridging modern insight with ancient wisdom to nurture the mind and body's full capacity for alignment, focus, and vitality.
